Sumagic®

PLANT GROWTH REGULATOR

EPA Reg. No. 59639-37

SUMAGIC® PLANT GROWTH REGULATOR FOR USE ON FRUITING VEGETABLE TRANPLANTS

For Commercial Greenhouse, Lathhouse and Shadehouse Use Only

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ ENTIRE LABEL. USE STRICTLY IN ACCORDANCE WITH PRECAUTIONARY STATEMENTS AND DIRECTIONS, AND WITH APPLICABLE STATE AND FEDERAL REGULATIONS.

Fruiting vegetable transplants are typically grown at high densities, which limit penetration of light into the canopy. Therefore, transplants often have elongated, weak stems that are easily damaged. This can result in significant damage to transplants during shipment and decrease their marketability. Application of *Sumagic* results in compact transplants with thicker stems that are less likely to be damaged during shipment and are much more appealing to consumers.

RATE TABLE

FRUITING VEGETABLE TRANSPLANTS	RECOMMENDED SPRAY CONCENTRATION RANGE		
	FL OZ/GAL	ML/GAL	PPM
Eggplant Groundcherry Pepino Pepper Tomatillo Tomato	0.52 to 2.6	16 to 76	2 to 10
<ul style="list-style-type: none">• Apply uniformly as a foliar spray at a spray volume of 2 qts/100 sq ft.• Make initial foliar application when 2 to 4 true leaves are present.• Sequential applications at lower recommended rates will generally provide more growth regulation than a single high rate application.• First time users should apply the lowest recommended rate in order to determine optimal rate for individual cultivars under local environmental conditions. If additional growth regulation is required a sequential spray application at the lowest recommended rate should be made 7 to 14 days after initial application.• If multiple applications are made to the transplants, the total amount of uniconazole-P applied may not exceed that from a single application of a 10 ppm spray concentration at 2 qts/100 sq ft (equivalent to 0.000042 lb ai/100 sq ft or 0.018 lb ai/A). The final application may not occur later than 14 days after the 2 to 4 true leaf stage.			

THIS LABELING MUST BE IN THE POSSESSION OF THE USER AT THE TIME OF APPLICATION. PLEASE REFER TO CONTAINER LABEL FOR ADDITIONAL PRECAUTIONARY STATEMENTS. FOLLOW ALL APPLICATION DIRECTIONS, RESTRICTIONS, AND PRECAUTIONS ON THE EPA REGISTERED LABEL.

PLEASE CONTACT VALENT U.S.A. CORPORATION AT 800-6-VALENT (682-5368) TO DETERMINE IF THIS USE IS REGISTERED IN YOUR STATE.
